THE SILVER PROBLEM.

Commercial Gazette

Farmer Anderson has two thousand bushels of wheat.

Mr. Jones has a thousand dollars worth of silver bullion. Mr. Anderson's wheat is worth in the

market \$1,000.

So is Mr. Jones's silver bullion.

Mr. Jones goes to Philadelphia, akes his silver to the Mint and has it coince into two thousand nice, fine, pretty silver dollars.

When Farmer Anderson brings along his thousand dollars worth of wheat, Mr. Jones buys it, paying him \$1, 000 and he has \$1,000 left with which to buy the wheat of the next farmer that comes along.

This is free coinage. Some people are sure that all the farmers in the country are shouting for it.

We should see a good many strange things in this country if the silver people should have their way.

A SINGLE gold standard meets the views of Secretary of Agriculture Mon-TON as a sound currency basis. He is believed to be speaking for President CLEVELAND.

THE LEDGER tumbled headlong into an error in saying that Hon. WILLIAM BOWMAN of the State of Lewis was the present Senator from this District. He is the present able Representative from Lewis.

BEFORE the Democrats secured control of Uncle Sam's Treasury and other affairs they promised wonderful things.

Among others, money would just rain into the Na-Promise tional Treasury from somewhere-from Performance. some imaginable source-and it

would not come out of the pockets of the people.

Well, the majority believed the campaign liars, and the Democrats have had charge for the rise of two years, and matters are steadily becoming no better Pure Materials and Best with the speed of a locomotive.

The Treasury deficit for the first twenty days of April is \$10,669,389. The veceipts for the month have been but \$17,085,435 and the expenditures some \$27,754,824.

The deficit for the year to date aggregates a little more than \$24,000,000.

The outlook for the next month is not pleasing, for Commissioner Lochnen will JOHN CRANE, 31 E. Fourth St. call for \$12,000,000 for pension pay-

Then will come June, the last month of this fiscal year, and it is also expected to show a deficit.

The receipts from the income tax being cut at least in two by the Supreme Court's decision will help make the deficit for the year larger than expected, and then, too, the receipts from customs have not equaled expectations.

The indications, therefore, are that the deficit for the year will aggregate about \$60,000,000, and it may even ex-

ceed that figure. Oh, yes; the Democrats are making a splendid record!

Well, you know the servants are a heap of trouble.

The children worry me a heap. I am broken down.

In the morning I generally have a headache; Along towards evening my back

feels as if it would break. Every time the baby cries I nearly jump out of my skin, I am

so nervous. Your system needs toning up. Why not take Brown's Iron Bitters, the best strengthening medicine made. It will give you a good appetite, make your blood rich and pure, give you strength, make life a pleasure. Not only the it yourself, but give it to the children. it is pleasant to take. Small doce. INCOME TAX.

The Late Decision in the Case to Be Vacated

If Justice Jackson is Able to Go to Washington May 6.

Listen to a Bearrangement of the Matter is If it had Not been Passed Upon at All.

WASHINGTON, April 25.-If Justice Jackson of the supreme court, is in Washington on May 6 the court will vacate the income tax decision handed down April 8, and open the case for reargument. Tuesday's order for a rehearing of the cases was generally understood to mean that the court would merely listen to arguments on the motion for a rehearing, and that a reargument would be denied or set for some future day. The court meant to say nothing of the sort. The chief justice intended to announce that on May 6, if Justice Jackson is then on the bench, as it is xpected he will be, the court will lison to a reargument of the income tax es as if they had not been passed

on at all. Now, if a rehearing is granted, with Justice Jackson on the bench, the ourt can only do one of two things: t can deny the motion or it can enterin, and the latter action would of itelf necessarily vacate the order already ade. The arguments of the motion r rehearing will be in themselves orguments of the merits of the case, nd if the motion is granted a new desion will be a necessity. This exanation of the effect of Tuesday's acon of the court gives an entirely new spect to the case, and makes it reasonbly certain that a reargument will be ranted.

TO BLOCKADE PORTS.

The First Practical Movement Toward Ex-ecuting England's Demanda Against

WASHINGTON, April 25 .- The reports from Nicaragua confirm the recent statements of the dispatches that a blockade of Nicaragua ports would be Great Britain's means of executing her demands. The understanding is that the blockade will begin next Saturday, giving Nicaragua the three On That Day the supreme Court Will full days intervening to yield to the demands in every particular. There is good reason to believe that the demands will not be altered, reduced or compromised in the slightest particular, one of the main purposes of Great Britain being to administer a lesson to Nicaragua, and indirectly to all southern republies as to British methods of redress. The maneuver will probably be a "pacific blockade," as heretofore explained, care being taken to bring Nicaragua's commerce to a standstill, and yet to leave foreign commerce as free ever. It is said, however, that Nicaragua's coast commerce is very small, so that Great Britain's Pacific blockade may develop into a more forcible move in order to make it effective. As to the landing of British marines at Corinto, which is now understood to be part of the programme, it is stated by officials that this will not menace or endanger the interests of the United States or other foreigners. The case of the British bombardment of Alexandria is cited to show that British policy toward foreigners at a threatened point. In that case Great Britain wished to strike Egypt, but to do so, she was compelled to injure some foreign interests at Alexandria. Notice was therefore given that foreign interests would be protected with every-precauton possible, and if they were injured as an incident to the attack compensation would be made. Subsemently the few foreign interests which suffered were voluntarily remunerated by Great Britain. It is said the same policy will prevail at Corinto. breat care will be taken to protect forign interests, and should the latter suffer indirectly they will be compen-

sated for loss. PECIPROCITY WITH HAWAIL WASHINGTON, April 25.—Reciprocity between the United States and Hawaii in shipping regulations has recently been brought about by the action of the treasury department in giving the liawaiian merchant vessels the same advantages enjoyed by American ships, The Hawaiian government has already placed United States ships on the same terms as its own. Mr. Hastings, the Hawaiian charge here, says the new arrangement is proving very satisfactory to shipmasters in both countries.
